OFFICE OF ADMINISTRATION OVERVIEW

The Office of Administration (OA) is the state's service and administrative control agency. Created by the General Assembly on January 15, 1973, it combines and coordinates the central management functions of state government. OA's responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the commissioner of administration who is appointed by the governor with the advice and consent of the Senate. The commissioner appoints the directors of the divisions who are responsible to him. The OA divisions are: **Accounting**-maintains all financial records for state appropriations and funds, processes payments, controls production of warrants, and distributes checks; **Budget and Planning**- analyzes state government programs and provides recommendations and information to the Governor, General Assembly, and state agencies regarding fiscal and other policies; **Facilities Management, Design and Construction**- provides project management and construction administration for capital improvement projects; operates, maintains and manages state-owned office buildings and other structures, and is responsible for acquiring and managing leased space; **General Services**-provides agencies with a variety of support services such as printing, mail services, fleet management, vehicle maintenance, and administration of the legal expense fund and the state employee workers' compensation program; **Information Technology Services**- manages state information technology resources; provides mainframe computer processing services through the State Data Center; manages the State's telecommunication services; and provides Internet services, IT education services, and network support to all state agencies; **Personnel**- provides central human resource (HR) management programs and services to all executive branch departments in compliance with the State Personnel Law; and **Purchasing and Materials Management**-centralizes procurement to save money by purchasing supplies, materials, and services in larger quantities and encourages competitive bidding and awards on all contracts; maintains responsibility for the statewide in-house recycling program; transfers and/or disposes of state agencies' surplus property to maximize state resources; and administers the Federal Surplus Property Program.

A number of boards and commissions' budgets are also assigned to OA: Administrative Hearing Commission; Office of Equal Opportunity; Martin Luther King, Jr. Celebration Commission; Office of Child Advocate; Children's Trust Fund; Governor's Council on Disability; Missouri Public Entity Risk Management (MOPERM); and the Missouri Ethics Commission. The Board of Fund Commissioners public debt budget request (House Bill 1) appears in a separate book.

The Office of Administration administers a number of debt and related debt obligations appropriations, various pass-through distributions from the federal government, and statutory payments and reimbursements to political subdivisions throughout the State.

Appropriations for all State employee benefits such as social security, retirement, and health insurance, are appropriated centrally to the Office of Administration in House Bill 5, and budget requests for those benefits appear in a separate book entitled "Employee Benefits."

None	Unknown	Unknown

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
No flexibility was necessary in FY11.	This will allow the division the flexibility to pay accrued time when someone leaves the division, replace critical equipment, or make other one-time unforeseen needed expenditures. We do not know ahead of time which of these will be needed.

2. CORE DESCRIPTION

Section 37.130 RSMo, provides that the demographic unit in the Office of Administration " shall provide requested assistance in all reapportionment matters." The federal decennial census began on April 1, 2010. The state of Missouri needs to prepare census geographic and election databases that will be used for reapportionment efforts following the census. This budget request ensured that the Office of Administration made necessary preparations for reapportionment activities by the bipartisan commissions and judicial panel in fiscal years 2010 through 2012.

The reapportionment duties funded by this core will no longer be needed in Fiscal Year 2013.
This appropriation is being cut from the FY2013 core.

2. CORE DESCRIPTION

In Fiscal Year 2007, the State's appropriations for certain information technology resources were consolidated under the Office of Administration. These resources are under the direct control of the state's Chief Information Officer, resulting in a better, more coordinated use of state resources. This decision item contains the operating funds for each of the division's sections including Infrastructure, Operations, and Administration. In addition, this section includes funding for information technology services provided to the 14 departments involved in the consolidation. The consolidated Information Technology Services Division (ITSD) continued with existing programs/functions and also restructured in order to manage and implement new IT Consolidation initiatives. These IT Consolidation initiatives include network consolidation, Email and server consolidation efforts, content management, and enabling MODOT fiber to help provide new telecommunications infrastructure including Voice over Internet Protocol (VOIP). The division continues to monitor agency IT budgets and to shift IT personnel in order to provide efficient and reliable service, and will leverage consolidated IT budgets in order to receive better pricing on equipment purchases and software pricing. These projects are multi - year projects.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 30615	DEPARTMENT: Office of Administration
BUDGET UNIT NAME: ITSD Consolidation	DIVISION: Information Technology Services Division

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

It is requested that 25% for General Revenue and 100% all other funding sources be designated as Flexible PS/EE. This flexibility is requested to help manage the IT consolidation for all participating departments. ITSD services are funded from 130 appropriations ranging from \$67 to over \$54 million. Changing needs of departments served by ITSD require that funding be flex so that proper spending from the proper sources are maintained. It is critical to the Division to retain key technical staff that continue to optimize the IT systems and to maintain technical support so that EE operating costs are contained and managed. In addition, certain software or equipment, or contracted services may be needed that can be funded from salary savings. This flexibility allows ITSD to provide services in the most efficient and reliable manner.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	State Data Center (SDC)
Program is found in the following core budget(s): ITSD Consolidation Operating Core	

1. What does this program do?

The State Data Center (SDC) was initially established in 1977 by consolidating the Department of Revenue and the Office of Administration computer centers. As part of the COMAP initiatives, the computer centers from the Highway Patrol, Social Services, and DOLIR were consolidated into the SDC. Savings are realized by the State through consolidating technical and operations personnel to maintain 24 hour services, as well as reducing hardware and software costs by sharing these capital expenditures. The SDC now represents the State's only 24 hour by 7 day a week mainframe data center. The SDC provides a number of mission-critical services to agencies, including CPU processing and storage for applications, such as MULES for the Highway Patrol, SAM II for the Office of Administration, MACSS and FAMIS for Social Services, and various tax systems for the Department of Revenue.

The SDC also houses the Internet access point for all state agencies and runs a firewall and DMZ complex to protect the state network from cyber attacks. The core network, which allows all state agencies to exchange email and data, is also the responsibility of this unit.

Agencies are billed by the Information Technology Services Division at rates developed through a Cost Allocation Plan, based upon agency usage of the services. The services are billed to agencies and then collected into the Revolving Information Technology Trust Fund. Payments for the vendor services and equipment are then paid from the same fund.

The FY12 Cost Allocation Plan for the SDC has 92.93 FTEs budgeted with a total operating budget of \$24,814,483 including fringe benefits of \$1,975,391.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Statute 37.005 authorizes the Commissioner of Administration to provide data processing services to agencies, the authority for billing.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

The prior year amounts include Fringe Benefit and Other Transfers from the Revolving Fund. The FY 2012 Planned Expenditures is the FY 2012 Cost Allocation Plan expenditure amount including transfers for Fringes and Other Transfers. The actual expense will depend upon the rate of agency utilization in FY 2012. Historically, expenditures have been less than projected in prior years.

6. What are the sources of the "Other " funds?

Revolving Information Technology Trust Fund. The operations of the State Data Center are appropriated from this fund.

7a. Provide an effectiveness measure.

Various SDC billing rates are used to gauge the cost effectiveness of the SDC program. A goal of having billing rates to agencies equal to or lower than the previous year is targeted annually.

A cumulative comparison of the rates yields the following data :

SDC Category of Service	SDC FY12 Rate	FY11 Rates	% Change
CPU Service Unit	\$0.00944	\$0.00924	2%
CICS (on-line) Transaction Cost	\$0.00087	\$0.00073	19%
DASD (Storage) Cost	\$0.09566	\$0.08961	7%
DB2 (Data Base) Cost	\$0.00216	\$0.00177	22%
Laser Print	\$0.03098	\$0.03153	-2%

The SDC strives to keep the rates equal to or lower than the previous year. Rates can vary from year to year due to replacement of equipment and demand for services.

7b. Provide an efficiency measure.

The SDC has been able to reduce the Net Billing to agencies per MIP by over 65% since FY00. Net Billings is what was billed to agencies after all credits in a fiscal year. MIPS (Millions of Instructions Per Second) are an industry standard to measure computing power on mainframe computers and much of our software license costs are based upon our MIPS capacity.

Program is found in the following core budget(s): Information Technology Services Division Consolidation	

1. What does this program do?

In FY06 the management of State Information Technology resources were consolidated under the Office of Administration. In FY06, some Information Technology (IT) assets were identified and separate IT appropriations created within each department with the exception of Revenue, MoDOT, Conservation, Highway Patrol, Judiciary, Elected Officials, General Assembly, and various boards and commissions. The IT FY06 consolidation appropriation in each department primarily consisted of Computer Equipment (subclass 480) and some of the departmental IT organization appropriation data. In FY07, the scope of the IT consolidation was expanded to include the Department of Revenue and to include other IT expenditures. IT appropriations from FY06, as well as additional IT expenditures were moved to OA/ITSD in FY07. The objectives of IT consolidation are many, but all relate to efficiently run, reliable, and available IT services.

This program provides IT services to the following departments:

- Agriculture	- Corrections	- Economic Development	- Elementary & Secondary Education
- Health & Senior Services	- Higher Education	- Labor & Industrial Relations	- Mental Health
- Natural Resources	- Public Safety	- Revenue	- Social Services
- Office of Administration	- Insurance, Financial Institutions and Professional Registration		

Services provided by the division include development and maintenance of applications on the web, mainframe, and other platforms; data management and database support; business continuity planning, cyber security support; the operation of a centralized computer facility used by state agencies and elected officials; email services; desktop support including help desk services; and support of the state's telecommunications network.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Statute 37.005 provides for the Commissioner of Administration to provide data processing services to agencies.

3. Are there federal matching requirements? If yes, please explain.

Certain federal grants require a percentage of matching funds.

4. Is this a federally mandated program? If yes, please explain.

No

2. CORE DESCRIPTION

This core request pays the State's communications bills. All costs are Revolving Information Technology Trust Fund, and the amount requested is based upon historical actual costs and projected utilization of the State network. Cellular phones and internet services were paid in this program beginning in FY 2009. The expenses incurred are primarily for Budget Class 760 – Rebillable Expenses, which are paid to various telecommunication vendors who provide services for the network. These expenses are then reimbursed by agency billings through the fund. An estimated "E" amount is needed since agency utilization of the telecommunications network will vary. Detailed costs are provided in the annual Telecommunication Cost Allocation Plan.

The Communications Core Request enables the Division to pay for Telecommunications services incurred by state agencies. Through this core request, the Division will continue to provide quality telephone and data network services to state agencies. By being able to acquire service from vendors at a quantity discounted rate, the division is able to provide excellent services at a reduced rate to state agencies. Agencies are then billed for their usage and the Revolving Administrative Trust Fund is reimbursed. Telecommunication services provided through this request are critical to the day-to-day operations of all state agencies. Not funding this decision item would not allow the State to pay its phone and data line bills. State phone line rates provided through this funding are lower than what an individual business line would cost an agency if an agency procured phone service on its own.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	Telecommunications Services
PROGRAM IS FOUND IN THE FOLLOWING CORE BUDGETS: Information Technology Services Division Telecommunications	

- 1. What does this program do? Provide Telecommunication Services to State Agencies**

Telecommunications services are provided to all state agencies, and some of the colleges and universities. Services include local phone service, long distance, data circuits, voice mail, dial-up Internet service, toll free (800) lines, wireless and other telecommunication services. Services are acquired from Telecommunication vendors through competitive bidding at quantity discounted rates. By centralization of this bidding process, the State is able to acquire services at reduced rates that would not otherwise be available to individual state agencies. Agencies are then billed by the Information Technology Services Division at rates developed annually through a Cost Allocation Plan. Agency payments are collected into the Revolving Information Technology Trust Fund. Payments for the vendor provided services are then paid from the same fund in a consolidated manner for all state agencies. The program exists to provide quality telephone and data network services at reduced rates. Rates are lower than what agencies could obtain individually. In addition, charges are audited to determine that the correct rates are being charged by the providers. The FY12 Telecommunications Cost Allocation Plan has 57 FTEs budgeted with a total operating budget of \$31,784,443 (includes fringe benefits of \$605,828).

- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Authority for operating the Telecommunications section is in Chapter 37 of the State statutes.

- 3. Are there federal matching requirements? If yes, please explain.**

No

- 4. Is this a federally mandated program? If yes, please explain.**

No

- 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

The prior year amounts include Fringe Benefit and Other Transfers from the Revolving Information Technology Trust Fund. The FY 2012 Planned Expenditures is the FY12 Cost Allocation Plan expenditure amount for expense and equipment. The actual expense will depend upon the rate of agency utilization in FY12. Historically, expenditures have been less than projected in prior years.

FY 2010 Actual	27,283,144
FY 2011 Actual	35,176,283

6. What are the sources of the "Other " funds?

OA Revolving Information Technology Trust Fund. The operations of the Telecommunications program are appropriated from this fund.

7a. Provide an effectiveness measure.

Various Telecom billing rates are used to gauge the **cost effectiveness** of the program. A goal of having billing rates to agencies equal to or lower than the year prior is targeted annually. Variances to this goal may be the result of unusual fluctuation in usage or the pricing in a category in a given year. Since Telecommunications bills agencies for its services, the rate structure is a tangible measure of cost effectiveness, and efforts are made continually to reduce the cost per unit cost.

Cost Category	FY02 Rate	FY09 Rates	FY10 Rate	FY12 Rate	% Change Since FY02
Centrex or ABC Access (Local Phone Service in JC)	\$17.33	\$16.36	\$16.36	\$25.38	46.5%
Long Distance Rate	\$0.0651	\$0.0569	\$0.0569	\$0.0616	-5%
Plexar Access (Local Business Line in St. Louis or KC)	\$13.68	\$12.13	\$12.13	\$13.52	-1%
Voice Mail	\$4.00	\$3.25	\$3.50	\$2.00	-50%

The billing rates to agencies help validate and measure the cost effectiveness of the Telecommunications program. The State saves significant dollars by leveraging statewide volumes and centralizing the procurement and administration of these services.

7b. Provide an efficiency measure.

A survey was done in August, 2008, which compared the State telecommunications billing rate to what the normal rate for a business might be. These are the types of rates agencies of the State might pay if they attempted to contract individually with Telecommunication vendors.

Comparison of Rates Billed to Agencies in FY08 to what agencies would have to pay at Regular Business Rates.

Type of Services	State Rate *	Regular Business Rate
Local Business Line in J.C.	\$25.38	\$37.06
Local Business Line in K.C.	\$13.52	\$39.60
Local Business Line in St. Louis	\$13.52	\$42.72
Local Business Line in Springfield	\$13.52	\$37.83

* The State's billing rates include features such as Call Forwarding, 3 party calls, transfer of calls.

The Regular Business rate does not include these features, which would be a significant addition

Other Efficiency Notes (measures) regarding the Telecommunications Program that are difficult to Quantify

A. Savings to Agencies Paying 1 Consolidated Telecommunications Invoice

Agencies can receive one consolidated invoice and do not have to pay but one monthly amount to ITSD as opposed to an invoice for each type of service to multiple vendors. Statewide, that is a considerable savings in invoice processing for state agencies since several vendors provide services to state agencies and there are over 800 state entities that receive billings from ITSD each month. Because of our new billing system, the number of invoices per month was reduced from 1,600 to 800, also saving agency staff time.

B. State Operator Services

The State Operator services are funded through this program. State Operators process hundreds of information calls from the public and state employees every day providing a "live" answering service to many citizens needing help in order to find answers to their questions. The operators also establish conference calls for state agencies and legislators saving travel expense and employee time.

7c. Provide the number of clients/individuals served, if applicable.

All State agencies are served by the Telecommunications program. On a regular monthly basis, over 1,000 monthly Telecom billings are distributed to State entities. The monthly billings incorporate about 78,000 lines being billed each month. Most State employees have telephone lines or use data circuits serviced by this program.

7d. Provide a customer satisfaction measure, if available.

The SETAC (State Executive Telecommunication Advisory Committee) committee works with OA/ITSD on Telecommunication policies, the review of the Cost Allocation Plan and bids for services. The COMCOR committee, comprised of agency communication coordinators, provides input on services provided, vendor issues and for communication of Telecommunication procedures and policies.

2. CORE DESCRIPTION

The Division of Personnel assists all branches of state government by providing an effective and efficient statewide human resource management function, as well as guidance in several areas. Along with the Division of Personnel, the Personnel Advisory Board is responsible for the operation of the Missouri Merit System, the UCP System and other HR management functions established by Chapter 36, RSMo. The director of the Division of Personnel and other division employees act as staff to the Board in its oversight and policy making responsibilities. The three major programs of the Division are as follows:

- The Employee Services section, which develops and administers position classifications for agencies covered by the Uniform Classification and Pay (UCP) System; ensures employees are assigned to appropriate job classes and that new job classes are assigned to the appropriate pay range; reviews applications for employment within the Merit System; and develops, updates and administers Merit System examinations.
- The Pay, Leave and Reporting section provides information on the UCP System pay plan; interprets policies on pay, leave and hours of work; provides assistance with the SAM II HR/Payroll System; maintains registers of people from whom agencies can select for Merit System jobs; ensures personnel transactions are in compliance with Chapter 36, RSMo; coordinates labor relations activities in individual state agencies including participation in negotiations with employee-elected unions and approval of agreements relating to uniform wages, benefits and those aspects of employment that have a fiscal impact on the State; and administers the Productivity, Excellence and Results for Missouri (PERforM) State Employee Online Appraisal System.
- The Center for Management and Professional Development develops and delivers management and supervisory training programs, and administers statewide recognition programs. This section also coordinates the WeSave employee discount program.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 30809	DEPARTMENT: Office of Administration
BUDGET UNIT NAME: Personnel-Operating	DIVISION: Personnel

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

This flexibility will allow the division to pay for unforeseen expense and equipment expenditures, particularly at the end of the fiscal year. Core cuts in our expense and equipment budget in previous years have left no flexibility to cover unexpected expenses. Funding source is all general revenue.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

\$36,000 was flexed from PS to EE in anticipation of costs associated with a call center being established in the Division of Personnel. However, only about \$4,000 of the flexed amount was spent.	Unknown

PROGRAM DESCRIPTION

Department Office of Administration
Program Name Employee Services
Program is found in the following core budget(s): Personnel Operating

1. What does this program do?

The Employee Services section has two main responsibilities: administering job classification activities for agencies in the Uniform Classification & Pay (UCP) System and the employment application process for positions with Missouri Merit System agencies. Staff of the Employee Services section develop and maintain job classifications and evaluate new and existing positions in support of the UCP System. Classification determinations strive to assure that jobs are appropriately classified and compensated within and among UCP agencies; equal pay for equal work; and consistent application of class concepts among UCP agencies. Staff and agencies work together to identify new or evolving positions and classes, establish ways to evaluate positions, and identify classifications which can be established through streamlined procedures. The Merit System application process continues its transition from an analyst-based, paper application process to one which allows applicants to complete the process on-line, including the completion of ratings of education and experience and any necessary examination scheduling. The Electronic Application System (EASe) provides greater applicant convenience and reduced timeframes, thereby providing faster response for both agencies and applicants. A goal is to place most, if not all, job classes on EASe. Additionally, we partner with agencies to manage the overall recruitment for merit system classes and assess opportunities to utilize additional on-line recruitment services.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

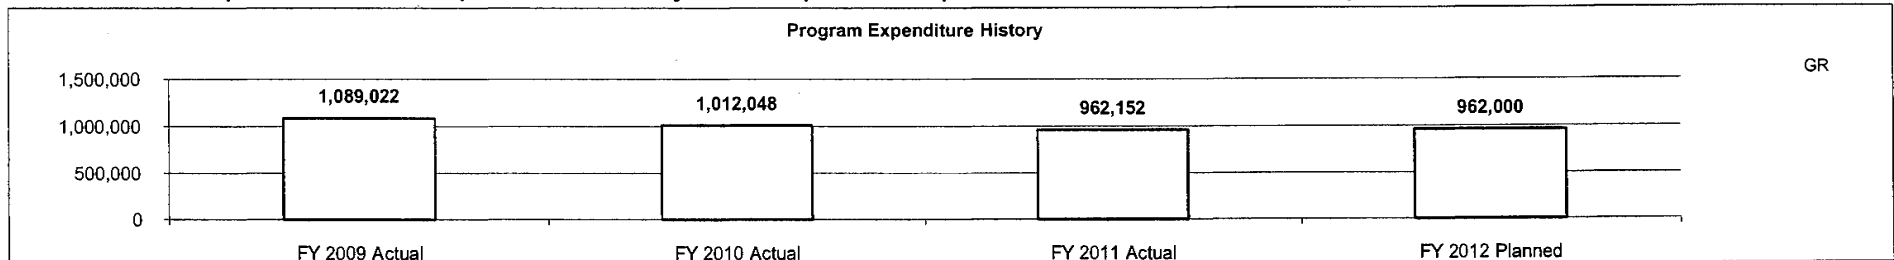

Chapter 36, RSMo - State Personnel Law

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**6. What are the sources of the "Other " funds?**

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

*In FY 2006 (May 2005) the Division of Personnel implemented EASe (Electronic Application System) which caused a downward trend in postage costs. Most correspondence with applicants is now accomplished through email. The implementation of this system was very timely in that the Division's EE budget was cut in FY 2006 by almost \$75,000 requiring a severe reduction in spending.

7c. Provide the number of clients/individuals served, if applicable.	

7d. Provide a customer satisfaction measure, if available.

The Division of Personnel transitioned to an applicant-based, self-certifying Electronic Application System (EASe) to provide greater applicant convenience and reduce the length of time to get applicant names added to the registers, thus providing faster response for both agencies and applicants. As a result of this change, the Division has assumed a different role of assisting appointing authorities in obtaining a qualified and effective workforce by auditing employment registers and/or certificates upon request. This measurement will reflect the number of audits, the resulting determinations, and their impact on individual applicants and employment registers.

PROGRAM DESCRIPTION

Department Office of Administration
Program Name Pay, Leave and Reporting Section
Program is found in the following core budget(s): Personnel Operating

1. What does this program do?

Staff maintains registers of qualified applicants and certifies names of applicants to merit system agencies. Certificates returned to Personnel designating an appointment are audited for accuracy and matched with the ensuing appointment in the payroll system to ensure compliance with statutes and the regulations. Staff audit and approve personnel transactions submitted by Uniform Classification and Pay (UCP) System agencies through the SAM II HR/Payroll system. The timely approval of transactions is very important as the pay of employees is frequently affected. This section administers the regulations governing pay, leave, hours of work, overtime, certification, removal from registers, transfers, political activity, conflicting employment, and layoff. Staff helps maintain the UCP System pay plan which includes drafting recommendations from the director of Personnel to the Personnel Advisory Board for the upcoming budget cycle and associated fiscal year. This section maintains the HR-related tables in the SAM II HR/Payroll system that have been assigned to the Division of Personnel. This section provides a central labor relations function for the state which coordinates labor relations activities including negotiations as required by Chapter 36. In addition, section staff have also taken on the "corporate administrator" and liaison role to state agencies for the federal E-verify system for electronically checking the work eligibility of new state employees. The section also administers and provides consultation to agencies on the MAIRS applicant tracking system, the EASE on-line application system and the PERforM performance appraisal system.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 36, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Although Pay, Leave and Reporting functions are not mandated by Federal law, section staff provide advice and consultation in areas such as Federal overtime, minimum wage, FMLA, Military Leave, etc.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	Pay, Leave and Reporting Section
Program is found in the following core budget(s):	Personnel Operating

7a. Provide an effectiveness measure.

A survey of several state departments was recently performed to show how they characterized the effectiveness of the current human resources structure with regard to the following HR functions and services: Transaction Processing; Recruitment; Labor Relations; FMLA; Employee Investigations; Employee Relations; Classification and Compensation Adjustments.

7b. Provide an efficiency measure.

The Division of Personnel collects and analyzes data in order to prepare the annual pay plan recommendations. We participate in surveys with other states in order to collect salary data on a variety of job classifications that aren't likely to be found in the private sector, such as Corrections Officers. While information is helpful to have, the private sector companies are our real competition in the state of Missouri. For confidentiality, competitive, and legal reasons, most private companies will not release their salary data. We pay a third party in order to obtain that data. Previously, we paid approximately \$800 dollars for Missouri salary survey information. Recently that company changed their methodology and the number of matches have decreased significantly. We researched other companies that offer salary survey information. Most are expensive and well beyond our budget. However, we discovered one company that is well established, respected in the field, and offers several efficiencies. First, we save time by not participating in two surveys, which take a couple of weeks each to complete. Second, the information is updated quarterly rather than annually. Third, we can download reports anytime throughout the year rather than just receiving one report. Finally, we can obtain data regionally, statewide, or by three of the larger cities.

7c. Provide the number of clients/individuals served, if applicable.

The number of clients served by the section are numerous. For example, the Employee Relations manager deals with the eight unions (eleven bargaining units) representing state employees. The SAM II HR/Payroll staff provide assistance to the agencies, while maintaining reference tables and providing some statewide reporting from the SAM II HR/Payroll Data Warehouse. The Transaction Audit Unit provides assistance to human resources staff in 12 state agencies (representing about 38,995 employees) on the SAM II system, Chapter 36 and the related regulations. In addition, staff approved 48,664 personnel related transactions in FY 2011. The Certification Unit works with the 9 merit system agencies representing about 32,240 merit system employees and thousands of job applicants in maintaining their status on various registers. During FY11, 5,317 certificates were generated. These certificates included the names of 215,445 applicants. Staff also administer the electronic application system (EASe) and applicant tracking system (MAIRS). Pay Administration supports the 12 Uniform Classification and Pay Agencies covering about 34,947 classified and covered employees. The section also provides assistance to all agencies on the federal Fair Labor Standards Act, hours of work, and the leave rules, and other human resources-related areas.

1. What does this program do?

Chapter 36 prescribes that the Division of Personnel will develop, initiate and implement a central training program for executive, managerial and supervisory development in Missouri state government. The Center for Management and Professional Development (CMPD) develops and delivers management and supervisory training programs (workshops and webinars) according to guidelines established by the Management Training Rule (1 CSR 20-6). Workshops are offered to managers and supervisors using best practice leadership development strategies from training partners such as FranklinCovey, the Center for Leadership Studies, VitalSmarts, Achieve Global, Development Dimensions International (DDI), the University of Missouri, Missouri State University, other local colleges, individual development consultants and Division staff. In addition, the Division sponsors state membership to the Institute for Management Studies (IMS). IMS is an international, not-for-profit educational and professional development organization offering specialized training programs each month in Kansas City and St. Louis conducted by leading practitioners, authors and authorities in the area of management. Staff of the CMPD also administers statewide recognition programs including State Employee Recognition Week, State Employee of the Month, the Missouri Relies on Everyone (MORE) State Employee Suggestion System, Missouri State Employees Award of Distinction, the Governor's Award for Quality and Productivity, and the new employee recognition website, In the Spotlight. CMPD also coordinates the WeSave Employee Discount Program.

7a. Provide an effectiveness measure.

Each year, the Division of Personnel requests state agencies provide information about the development of their managers and supervisors to include in the Division's annual report. The information included in the FY10 annual report reflects data received from Executive Branch agencies that responded to our request. The report indicated that agencies remain committed to the professional development of their managers and supervisors; and of those agencies responding, 67% tracked compliance with the Management Training Rule.

7b. Provide an efficiency measure.

During FY11, the Division of Personnel provided 132 training programs for state managers, supervisors and executives provided at a cost per hour of approximately \$23.75 per participant (based upon a cost of \$95.00 for a typical 4-hour workshop). The average national cost per hour agencies and organizations invest in the development of similar training for their employees is \$62.00 (Source: ASTD's 2010 State of the Industry Report).

7c. Provide the number of clients/individuals served, if applicable.

The Center for Management and Professional Development provides training for all state agencies who wish to take advantage of course offerings. In FY 2011, 1,907 state supervisors, managers and executives enrolled in at least one of the 132 workshops offered.

7d. Provide a customer satisfaction measure, if available.

One measure of customer satisfaction is feedback received from training classes. Based upon a random sample of the participant training evaluations in FY 2011, approximately 95% of attendees were satisfied with the overall training experience, and about the same percent would recommend this training to others.

2. CORE DESCRIPTION

This core requirement is for funding to provide surplus property services. The Division of Purchasing and Materials Management (DPMM) is responsible for operating the Federal Surplus Property program as provided in Chapter 37, RSMo. The State Agency for Surplus Property (SASP) is responsible for the administration of the Federal Surplus Property program. The SASP receives federal surplus property (at no cost to the State other than transportation costs), but the federal government does require the State to continue tracking the original acquisition cost of the property. The SASP transfers the property to eligible entities (state agencies, cities, counties, schools, not-for-profit health and educational activities, providers of assistance to the homeless and needy, SBA 8(a) program participants, and service educational activities). All expenses incurred by SASP for operating the Federal Surplus Property program are recovered through service charges applied to property acquired by eligible entities.

PROGRAM DESCRIPTION

Department: Office of Administration

Program Name: Surplus Property

Program is found in the following core budget(s): Federal Surplus Property-Operating

1. What does this program do?

The Division of Purchasing and Materials Management (DPMM) is responsible for operating the Federal Surplus Property program as provided in Chapter 37, RSMo. The State Agency for Surplus Property (SASP) is responsible for the administration of the Federal Surplus Property program. The SASP receives federal surplus property (at no cost to the State other than transportation costs), but the Federal government does require the State to continue tracking the original acquisition cost of the property. The SASP transfers the property to eligible entities (state agencies, cities, counties, schools, not-for-profit health and educational activities, providers of assistance to the homeless and needy, SBA 8(a) program participants, and service educational activities). All expenses incurred by SASP for operating the Federal Surplus Property program are recovered through service charges applied to property acquired by eligible entities.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 37, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Federal Surplus Property Fund (0407)

2. CORE DESCRIPTION

Since the merger of Facilities Management and Design and Construction, we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying and reducing deferred maintenance, bringing to bear new technology to manage our assets, and using a full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio, we will reduce operating costs. Well-maintained facilities are cheaper to operate.

The Division of Facilities Management, Design and Construction (DFMDC) provides professional asset management services to assist state entities in meeting their facility needs for the benefit of the public. These services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan and Energy Management.

BUDGET UNIT NUMBER: 31041	DEPARTMENT: Office of Administration
BUDGET UNIT NAME: FMDC Asset Management	DIVISION: Facilities Management, Design and Construction

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Continued PS/EE flexibility of 25% would allow the Division of Facilities Management, Design and Construction the ability to adjust funding to match varying asset management needs and costs. This totals \$6,617,904 PS and \$16,554,020 EE. PS and EE will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of withholds and core reductions will impact how the flexibility will be used.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$0.00	\$0.00	25% flexibility between PS & EE

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE

PROGRAM DESCRIPTION

Department Office of Administration
Program Name Facilities Management, Design and Construction
Program is found in the following core budget(s): Asset Management

1. What does this program do?

Since the merger of Facilities Management and Design and Construction, we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying the reduction of deferred maintenance, bringing to bear new technology to manage our assets and using full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio, we will reduce operating costs. Well-maintained facilities are cheaper to operate.

The Division of Facilities Management and Design and Construction (DFMDC) provides professional asset management services to assist state entities in meeting their facility needs for the benefit of the public. These services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan, and Energy Management. Beginning in FY08, institutional consolidation of fuel & utility and maintenance and repair dollars were transferred to FMDc.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Missouri Revised Statutes, Chapter 8, Section 8.120, Division of Design and Construction Created - Duties
 Missouri Revised Statutes, Chapter 8, Section 8.110, Division of Facilities Management Created - Duties
 Missouri Revised Statutes, Chapter 34.030, Leasing

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

State Facility Maintenance and Operations Fund (0501)

2. CORE DESCRIPTION

This appropriation provides authority to spend gifts, bequests, grants, and donated funds in support of the work of the Missouri State Capitol Commission for the restoration and preservation of the Capitol Building, the promotion of the historical significance of the Capitol Building, and the improved accessibility of the Capitol Building. Established in SB 480 (2009), the legislation also established the State Capitol Commission Fund. Any moneys received by the Commission from sources other than appropriation, including from private sources, gifts, donations and grants, are to be credited to that fund and appropriated by the General Assembly. The Commission exercises general supervision and administration of the fund. Appropriation authority is required to allow for the expenditure of any funds that may be received.

An estimated appropriation is requested to ensure the ability to expend all funds should receipts exceed the stated authority amount.

2. CORE DESCRIPTION

This core represents revolving fund authority that allows the Division of Facilities Management, Design and Construction (DFMDC) to make up-front payments for expenses associated with facility management, purchases of materials for facility modifications, tenant services that support agency programs, replacement, and repair costs, and other support services at state facilities when recovery is obtained from a third party. DFMDC bills agencies for such costs via the interagency billing process.

This pass through appropriation gives DFMDC the ability to effectively manage facilities, modification projects and other services by establishing a mechanism to make up-front purchases for materials without reducing appropriation authority for facility operating purposes. The Division also makes up-front payments for other extraordinary services agencies may require that would otherwise place an unreasonable burden on the regular operating budget of the facility.

2. CORE DESCRIPTION

Core appropriation authority to make payments from the Property Preservation Fund - a self-funded alternative to the purchase of property insurance for bonded state owned or leased facilities. The State of Missouri is required under bond covenants to purchase property insurance for bonded state buildings to protect the bondholders should the assets backing the bonds, the covered buildings, be damaged or destroyed. Prior to the passage of legislation creating the Property Preservation Fund, over 92.5% of the value of all state property was uninsured. The remaining 7.5% was covered by property insurance. The fund was created to provide coverage to named property for purposes of repairing or replacing state-owned or leased property damaged from natural or man-made events. Only if a loss to a covered building occurs would a payment be made. The fund is estimated to save the state over \$1 million annually in insurance costs.

This appropriation will be used to repair or replace certain state-owned or leased property damaged from natural or man-made events. Due to the uncertainty of losses, actual expenditures from the fund may fluctuate significantly from year to year. In any given year there is the risk that a bonded building may be damaged and the state would be liable for the cost to repair or replace the damaged building. Over the past 24 years, there have been only two claims totaling \$281,000 for losses to covered bonded buildings. This appropriation is requested on an estimated basis.

2. CORE DESCRIPTION

Appropriation authority to purchase required raw materials used in the production of final goods and services to state agencies. State Printing, Vehicle Maintenance, Fleet Management, and Central Mail Services use this revolving fund appropriation to purchase inventory (e.g., paper, parts, fuel, and postage) and obtain outside services to provide products and services to state agencies. This appropriation is also used to purchase goods or services that are rebilled to state agencies, including the cost of vehicles and supporting expenses for the consolidated Jefferson City carpool.

The amount of paper, vehicle parts, postage, fuel, services, or supplies acquired is directly dependent on the level of demand by agencies. Funds appropriated for rebillable expenses is used for the purchase of raw materials or goods placed in inventory for later conversion or sale and for services obtained that are necessary to produce final goods or services. Equipment, maintenance, and rebillable coded expenditures required to produce the final goods or services are paid from this appropriation.

This appropriation will also be used to replace property, damaged through the fault of a third party, to the extent recovery is made from the third party or their insurer. This allows state agencies to replace state owned property that is destroyed through the fault of a third party. Also, under Section 37.452, RSMo, agencies are authorized to use credits from the sale of surplus vehicles toward the purchase of new vehicles through this appropriation.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

During FY11, mail services for the Department of Social Services was consolidated with most other state agencies in the Jefferson City area. Phase II of the mail consolidation effort resulted in a 50% reduction in the staffing levels required to process DOSS mail. Central Mail Services is now responsible to purchase postage for DOSS and recover those costs through charges to the department.

The division is also consolidating agency car pool fleet fleets in the Jefferson City area. This effort will lead to a more efficient and better utilized fleet for use by state agencies. Approximately 100 vehicles will be reduced as part of the consolidation effort. This appropriation will be used to pay the fuel, maintenance and depreciation costs for the fleet that will be recovered through charges to state agencies.

This request from the Revolving Administrative Trust Fund will increase the estimated appropriation to the anticipated level required to provide the requested goods and services.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

There are two major factors driving the need for a \$5 million increase to the Rebillable Appropriation in General Services. First, the division consolidated the mailing operations for the Department of Social Services in January 2011. The Rebillable Appropriation purchases postage that is applied to the mailings. Postage for Social Services mail has averaged \$386,340 per month or \$4.6 million per year.

Second, the division is in the process of consolidating agency car pools located in the Jefferson City area. Total consolidated vehicles in the pool will increase from 49 vehicles in FY 10 to 244 vehicles by the end of FY 12. Total miles driven after full consolidation are expected to increase by nearly 1.9 million miles over FY 11 totals. Operating costs comprised of fuel and maintenance are expected to increase by more than \$335,000 during FY 12. In addition, the pool recovers depreciation expenses to fund vehicle replacement. Required vehicle replacement is expected to cost approximately \$400,000 for FY 13.

The additional costs from these two programs will increase rebillable expenditures by approximately \$5.3 million.

2. CORE DESCRIPTION

The Administrative Hearing Commission was established under Chapter 621, RSMo. Its purpose is to hear and decide cases arising from disputes between state agencies and private parties. The mission is to serve the citizens of Missouri by holding hearings, reviewing settlements, and issuing timely decisions in cases that involve taxes, professional licenses, public safety, Medicaid and other matters.

The core budget request is for the AHC to process cases, hold hearings, produce transcripts, and issue decisions.

NOTES:

PROGRAM DESCRIPTION**Department: Office of Administration****Program Name: Administrative Hearing Commission****Program is found in the following core budget(s): Administrative Hearing Commission****1. What does this program do?**

The Administrative Hearing Commission (AHC) provides business entities and private citizens with an impartial review of decisions made by state agencies. The AHC hears and decides cases involving millions of dollars in tax and Medicaid reimbursement revenues; serious threats to public safety such as unsafe nursing homes, enforcement of the liquor control laws, and peace officers' certificates; and discipline of professional licenses. New statutes add to our jurisdiction almost every year. For example, in the past several years, statutes have transferred jurisdiction over motor carrier and railroad safety matters, surety agent licenses, and motor vehicle dealer licenses to the AHC. Additionally, the AHC serves as hearing officer through a memorandum of understanding with certain other state agencies whose cases do not fall into our statutory jurisdiction, most notably the Department of Agriculture, the Missouri Commission on Human Rights, and the Missouri Consolidated Health Care Plan. The Department of Natural Resources was previously included in that group, however HB 824 transferred the authority to hear appeals to the Hazardous Waste Management Commission, Land Reclamation Commission, Safe Drinking Water Commission, Air Conservation Commission, and Clean Water Commission to the AHC beginning August 28, 2005. Beginning August 28, 2010, the AHC has jurisdiction over personnel cases formally adjudicated by the Personnel Advisory Board including for example discipline stemming from termination, demotion and/or whistle blowing.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 621, RSMo creates the AHC and sets forth its procedures and jurisdiction.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 31212	DEPARTMENT: Office of Administration
BUDGET UNIT NAME: Administrative Hearing Commission	DIVISION: Assigned Programs

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

It is requested that 25%, PS and/or E&E be allowed between each appropriation, as provided in House Bill 1005, as Flexible PS/EE. This flexibility enables the AHC to better respond to any unforeseeable fiscal changes during tight financial times. Additionally, recent legislative changes have increased the AHC's jurisdiction and additional requirements related to complex cases heard by the AHC.

3 Year Average				94.50%				93.88%

*Average figure is more accurate measure than any one year as it corrects for unusual patterns that may occur at the beginning or end of a fiscal year.

**Projections will not be accurate because we do not control the number of cases filed. However, there has been a steady increase in cases closed and opened in the past few years. We base our projection on those numbers. Part of this increase is due to the AHC's jurisdiction over appeals from employment actions against state merit employees. This jurisdiction began on August 28, 2010.

7c. Provide the number of clients/individuals served, if applicable.

Actual numbers are 1837, FY09; 2062, FY10 and 2688, FY11. A number of parties, such as some state agencies, have many cases before us each year. In this graph, each party is only counted one time, even if that party had multiple cases at the AHC. Projections are made for current Fiscal Year 2012 and future Fiscal Years 2013-2014. The increase in actual client/individuals served in 2011 is in part a result of our expanded jurisdiction over grievances filed by state employees that formerly were adjudicated by the Personnel Advisory Board.

7d. Provide a customer satisfaction measure, if available.

None is available at this time.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

On August 28, 2010, the Administrative Hearing Commission's jurisdiction was increased to include contested cases previously heard by the Personnel Advisory Board, Pursuant to Sections 36.390.5 and 621.075, RSMo. Since August 28, 2010, there have been 158 of those cases filed with the AHC. Another commissioner was added to assist with the expanded jurisdiction. The new cases are more complex employment issues and require travel in the state for hearings. While the overall consolidation of jurisdiction at the AHC allows for economies of scale and will save the state money while delivering a contested case adjudication process - that has been ratified as protective of due process and other fairness concerns - an increase from the proposed budget will be necessary mainly to cover court reporting costs. Last year, a significant amount of the budget was used to pay for outside court reporting. Additional court reporters at the AHC will allow for us to hold more hearings at the same time. On August 28, 2011, the AHC will have 60 days from the date of filing to make a decision on all Department of Natural Resources cases, as a result of House Bill 89 (2011) and pursuant to Section 621.250, RSMo; and 120 days from the ready-for-decision date to make a decision on all Division of Professional Registration cases, as a result of House Bill 265 (2011) and pursuant to Section 621.110, RSMo. In order to meet these new decision deadlines, an increase from the proposed budget will be necessary for one commissioner, four attorneys, two paralegals, two court reporters, and one senior office assistant to assist with the increased caseload and new deadlines. Part of the increase will also be used for office equipment, and computer program licenses for the new staff members. More staff members will allow the AHC to issue decisions at a quicker pace to comply with the new deadlines.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Administrative Hearing Commission used the actual expenditures and current software contractual obligations to derive the totals and subtotals requested herein. Specifically, Budget Code 430-M&R Services is projected to require a \$1500 per user license fee for access to the AHC case management software. The AHC has 15 employees for total cost of \$22,500 in GL Suite license fees which will allow the commission's employees to utilize the required software. Also, the court reporters are subject to a software license fee that is \$1716.32 for both the court reporters (and includes access to the program for lawyers and commissioners as needed without additional charge).

The allocation requested to increase Budget Code 400-Professional Services is derived from the amount of cases filed with the AHC that were formally heard by the PAB and from the estimated demands of the new decision deadlines. Court reporter compensation for these categories is limited to professional services regulated by state contracts by non-state employees outside of Jefferson City. The contract provides among other fees for a minimum of \$30 per hour with increases of \$3.50 per transcript page in the most conservative of hearings (as to the necessity of specific court reporter services to be provided, the manner of delivery, time for transcript and degree of technical acumen needed to complete the assignment). Since August 28, 2010, the AHC has spent \$16,419.50 just on outside court reporter compensation. Rather than using outside court reporters, the AHC would like to hire additional court reporters who work only for the AHC so that we may hear more cases at the same time, thus meeting the new deadlines set out in the new legislation.

The following requests are from our fiscal notes 0385-10, HB 89 (2011) and 0520-07, HB 264 (2011): \$74,592 for two court reporters; \$102,430 for a commissioner; \$234,788 for four attorneys; \$71,016 for two paralegals; and \$47,592 for two senior office assistants. All of these new positions will allow the AHC to accommodate our increased jurisdiction, as well as the deadlines directed in Sections 621.250 and 621.110, RSMo.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Oversight of SB844 includes performing initial analysis, communicating with committee officers, conducting investigations, and performing legal work. Examples of SB844 Commission work includes:

- Reviewing newly formed committees to ensure the candidate, treasurer, deputy treasurer have not operated another committee where past due reports or outstanding fees are due to the Commission
- Reviewing quarterly reports for compliance with new SB844 provisions related to campaign finance contributions
- Sending notification within five days when contributions are determined to be made with the intent to conceal the identity of the contributor
- Reviewing, during the regular legislative session, reports due within 48 hours of contributions over \$500
- Initiating investigations, related to Chapters 105 and 130 provisions

Without this funding it is anticipated the Commission will:

- Provide limited, if any, oversight review, and investigations of SB844's provisions
- Continue using the Business Services Director as a staff person to answer the telephone, effectively removing essential staff management. Phone calls are ranging from 30-50+ a day per person and at peak times over 100 a day per person.
- Lengthen the time it takes to review reports for nonfiling, late filing, and /or checking for reporting of contributions received. With current resources, reviews are conducted well past the filing deadline; at times the reviews cannot be conducted at all.

One of the Commission's goals is to provide assistance to filers and to help with any problems with a completed filing, so the problems won't be repeated and compounded in future filings. This assistance includes both communication and review and analysis of reports. The Commission also works to hold everyone participating in the electoral process to the same consistent standards. When it is necessary to undertake a review and perform analysis of the filings, the Commission must have the resources to review the filings quickly and timely.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Commission receives the filing of approximately 11,000 campaign finance reports, 15,800 monthly lobbyists reports, 8,500 annual personal financial disclosures, 3,800 political subdivision annual operating budget filings and list of required filers, and the registration of 1,000 lobbyists. The agency currently has no Business Analyst responsible for undertaking reviews and performing analysis of the filings. Two Reporting Specialists are primarily responsible for answering questions from the public and other stakeholders related to these topics, assisting the filers in complying with the law at the time of e-filing and sending necessary notifications. When able to, the two conduct limited reviews six months or longer after the filing occurs. This delay does not assist in the Commission's goals to provide assistance to filers and to help with any problems with a completed filing, so the problems won't be repeated and compounded in future filings and hold everyone participating in the electoral process to the same consistent standards.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Debt service amounts for these Leasehold Revenue Bonds vary from year to year due to different maturity dates and interest rates of the bonds. The amount required for the FY 13 payments is greater than the FY 12 core as follows:

1. What does this program do?

This program provides for payment of various fees associated with outstanding debt, such as paying agent and escrow agent fees, arbitrage rebate, refunding costs and defeasance costs. It also provides for lead and supporting roles in most state debt financings. Included in this oversight is contact with the three rating agencies. Debt included in the oversight includes special obligation bonds, lease/purchase debt, convention center and dome financings and certain projects associated with the Missouri Health and Educational Facilities Authority (MOHEFA). The following explains the various debt being managed:

Special Obligation Bonds: The Board of Public Buildings is authorized to issue \$945 million in special obligation revenue bonds in accordance with RSMo, 8.420 and 8.665. The amount of authorization outstanding and not issued is \$73.8 million. There are four (4) series of Board of Public Buildings bonds outstanding as of 1/1/12 in the amount of \$567,490,000. To date, the final series of bonds will mature on 10/1/31.

Certificates of Participation: There are four (4) lease/purchase agreements outstanding. These consist of the St. Louis Acute Care Psychiatric Hospital, the St. Louis Psychiatric Rehabilitation Center, the Northwest Psychiatric Rehabilitation Center, and the Bonne Terre Prison. In March 2005, the state issued Refunding Certificates of Participation Series A 2005 to refund the original certificates of participation associated with the four lease/purchase agreements. In June 2011, the state issued Refunding Certificates of Participation Series A 2011 to refund the Series A 2005 Refunding issue. The principal amount of certificates outstanding as of 1/1/12 is \$76,910,000. The certificates will mature on 10/1/18.

MOHEFA: The Missouri Health and Educational Authority issued \$35,000,000 of bonds for the University of Missouri-Columbia arena project. The State has entered into a financing agreement to pay the annual debt service on these bonds. The principal amount of bonds outstanding as of 1/1/12 is \$22,770,000. The bonds will mature on 11/1/21.

Convention Center and Sports Complex: In accordance with RSMo, Section 67.638-67.645, certain cities and counties are allowed to create a "Convention and Sports Complex Fund" for the purpose of developing, maintaining or operating sports, convention, exhibition, or trade facilities. The State may then contribute annually to each fund. The State has agreed to and is currently contributing to two separate funds, the Bartle Hall Convention Center in Kansas City and the Jackson County Stadium Complex. The State's contribution will continue through Fiscal Year 2015.

Section 67.650-67.658, RSMo allows for the establishment of the Regional Convention and Sports Complex Authority. The Authority issued Series A 1991 (State sponsored) Bonds in 1991. The proceeds were used in addition to proceeds from St. Louis City and St. Louis County sponsored bonds, to build the Edward Jones Dome in St. Louis. In 1993, the Authority refunded the callable portions of the Series A 1991 Bonds by issuing Series A 1993 Refunding Bonds. In 2003, the Authority refunded the outstanding bonds with Series A 2003 Refunding Bonds. The State contributes \$10 million annually to the Authority to be used for debt service payments on the bonds. The State is also required to contribute \$2 million annually for maintenance of the facility. Final debt service payment to the Authority will be made on August 1, 2021. The final contribution for maintenance will be made on August 1, 2023. The amount of bonds outstanding as of 1/1/12 is \$76,780,000.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	Debt Management
Program is found in the following core budget(s):	

Missouri Development Finance Board: In FY 06, the Board issued \$28,995,000 of Missouri Development Finance Board Leasehold Revenue Bonds Series 2005 dated November 1, 2005. These bonds were issued to finance the purchase of one building in Florissant, one building in St. Louis, and one building in Jennings. Missouri Development Finance Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 dated May 1, 2006. These bonds were issued to finance the purchase of one building in St. Louis. The State has entered into a lease with the Board. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the bonds. As of 1/1/12, the amount outstanding on the Series 2005 Bonds is \$24,445,000 and the Series 2006 is \$8,335,000.

ESCO Debt: FMDC has utilized authority in Section 8.235.4, RSMo to finance projects to produce energy savings, reduce consumption, reduce pollution, and increase productivity at facilities around the State. Projects have been financed for 15 years at interest rates between 2.20% and 4.03%. The principal amount of contracts outstanding as of 1/1/12 is \$52,249,016.

Unified Communications: The Office of Administration entered into a lease purchase agreement to provide financing for the purchase, upgrade and replacement of the State's telecommunication equipment. The project will be implemented in multiple phases, including the Jefferson City area in phase I and the St. Louis and Kansas City areas in phase II. Financing for the project is over a 7-year term with an interest rate of 2.99%. The principal outstanding as of 1/1/12 is \$13,716,553.

The personal service and expense and equipment costs associated with this program, are not included in the costs presented in this form. Those costs are included in the Accounting Operations within the Division of Accounting. It is not cost beneficial to track the costs by program because of the overlap of job duties. The cost listed in this form are for the direct payment for debt and fees associated with that debt.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 8, RSMo; Sections: 67.638-67.645; 67.650-67.658; 178.892-178.896; and 288.128, 288.310, and 288.330, RSMo.

PROGRAM DESCRIPTION

Department Office of Administration

Program Name Debt Management

Program is found in the following core budget(s):

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Above costs do not include personal service and expense and equipment cost for support staff.

6. What are the sources of the "Other" funds?

Facilities Maintenance Reserve Fund (0124)
 State Facility Maintenance and Operation Fund (0501)
 Revolving Information Technology Trust Fund (0980)

7a. Provide an effectiveness measure.

Prompt payment of principal and interest results in adherence to statutory requirements and to bond resolutions and other financing agreements. This promotes sound financial management and helps to maintain the State's AAA bond rating. 2. CORE DESCRIPTION

This core request is to provide a funding contingency for new jobs training and job retention certificates' debt service cost in the event of non payment by the issuer. Sections 178.892 to 178.896, RSMo establishes the New Jobs Training Program and Sections 178.760 to 178.764, RSMo establishes the Job Retention Program. Essentially, businesses establishing new jobs in the State or retaining current jobs can enter into an agreement with a community college district to provide training for new employees. The training is funded from the proceeds of certificates issued by the community college district. Debt service on the certificates is payable only from Missouri withholding tax credits of the (first) new employees or (second) existing employees. If the business would sharply decrease or eliminate its operations, funds may not be available to meet debt service costs, therefore an "E" is being requested.

2. CORE DESCRIPTION

This core request is to provide funding for the State's contribution to the Bartle Hall Convention Center in Kansas City. Sections 67.638 - 67.645, RSMo allow certain cities and counties to create a "Convention and Sports Complex Fund" for the purpose of developing, maintaining or operating within its jurisdiction, sports, convention, exhibition, or trade facilities. The state may then contribute annually to each fund. The state began contributing to the fund in Fiscal Year 1991 and has agreed to continue through Fiscal Year 2015.

This core request is to provide funding for the State's contribution to the Jackson County (Kauffman/Arrowhead) Sports Stadium Complex. Sections 67.638 - 67.645, RSMo allow certain cities and counties to create a "Convention and Sports Complex Fund" for the purpose of developing, maintaining or operating within its jurisdiction, sports, convention, exhibition, or trade facilities. The state may then contribute annually to each fund. The state began contributing to the fund in Fiscal Year 1991 and has agreed to continue through Fiscal Year 2015.

PROGRAM DESCRIPTION

Department	Office of Administration
Program Name	CMIA and Other Federal Payments
Program is found in the following core budget(s):	CMIA and Other Federal Payments

1. What does this program do?

This program provides for payments to the federal government for items such as interest, refunds, and penalties.

The Federal Cash Management Improvement Act of 1990 and 1992 requires that the State track the draw down of federal funds for programs that exceed the threshold, as calculated using program expenditures. Interest is calculated using the daily equivalent of the annualized 13-week average treasury bill rate (4.18% in FY06, 5.02% in FY07, 2.99% in FY08, 0.60% in FY09, and 0.12% in FY10). Interest calculated on program disbursements from July 2010 through June 2011 is due in March of 2012.

The State also prepares a Statewide Cost Allocation Plan in accordance with OMB Circular A-87. This plan is used to allocate central service costs to various federal programs. The federal Department of Health and Human Services reviews the plan for adherence to the Circular. Reimbursement to the federal government may be required for any disallowed cost. In FY 06, \$950,000 was reimbursed to the federal government. This represented their share of money that was swept from the OA Revolving Trust fund to the general revenue fund in FY 05.

This program also covers any IRS penalties that have been assessed.

2. What is the authorization for this program, i.e., federal or state statute, etc.?

Cash Management Improvement Act; OMB Circular A-87, IRS Tax Code

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Yes. (see No. 1 above).

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

Transfer authority is required to transfer monies from general revenue or the Budget Reserve Fund to meet the provisions of Article IV, Section 27, Constitution of Missouri.

If the sum of the ending balance of the budget reserve fund in any fiscal year, and any amounts owed to the fund, is less than seven and one-half percent of the net general revenue collections for the same year, the difference shall stand appropriated and shall be transferred from the general revenue fund to the budget reserve fund by the fifteenth day of the succeeding fiscal year. Likewise, if the balance in the budget reserve fund at the close of any fiscal year exceeds seven and one-half percent of the net general revenue collections for the previous fiscal year, that excess amount shall be transferred to the general revenue fund unless such excess balance is as a result of direct appropriations made by the general assembly for the purpose of increasing the balance of the fund; provided, however, that if the balance in the fund at the close of any fiscal year exceeds ten percent of the net general revenue collections for the previous fiscal year, the commissioner of administration shall transfer the excess amount to the general revenue fund notwithstanding any specific appropriations made to the fund.

2. CORE DESCRIPTION

Cost allocations are an accepted accounting practice to recover costs for services provided to other entities. For instance, through a Statewide Cost Allocation Plan (SWCAP), the Federal government allows the State of Missouri to recover overhead costs for Federal programs.

Using standard, accepted accounting methods, the Central Services Cost Allocation Plan (CSCAP) recovers the costs of services provided by the Office of Administration, the Department of Revenue, the Governor's office, the Lieutenant Governor's office, the Secretary of State's office, the State Auditor's office, the Attorney General's office, the General Assembly, and the Capitol Police to the various state funds. To determine the eligibility of a fund to participate in the plan, the Office of Administration systematically analyzes relevant constitutional provisions, statutory language, fund revenue sources, and other factors that indicate whether a fund's participation in reimbursing general revenue would be appropriate.

2. CORE DESCRIPTION

This program distributes funding to counties in which National Forests are located. Revenue is received by the federal government for mineral leases, rentals, concessions, and timber from National Forest lands. A quarter of the revenue is returned to the states. The Office of Administration acts as a 'pass-through' agent, distributing the revenue to the counties according to a schedule provided by the U.S. Departments of Agriculture and Interior. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.
